Transaflow®
Syringes

The syringes we offer are compatible with the following injectors – an overview

Whether CT or MRI – the Transaflow® Multi-Patient-Syringe-System for administration of contrast media enables a hygienic, safe, time-saving and resource-efficient working day in radiology. Both the syringes and the Multi-APS Systems are compatible with all standard syringes injectors.

Standardization as well as safety and hygiene in radiology routine

Our Multi-Patient-Syringe-System optimizes contrast medium administration routines. The system consists of our proven 12- or 24-hours Transaflow® Multi-APS-Contrast media-Filling System and the matching 12- or 24-hours syringes. The closed system is complemented by our PWL (straight) and PWLS (spiraled) patient lines in the desired length.

- ✓ **With special drip and clog stop**
- ✓ **Multiple application up to 12/24 hrs**
- ✓ **Certified by the DGKH e.V.**

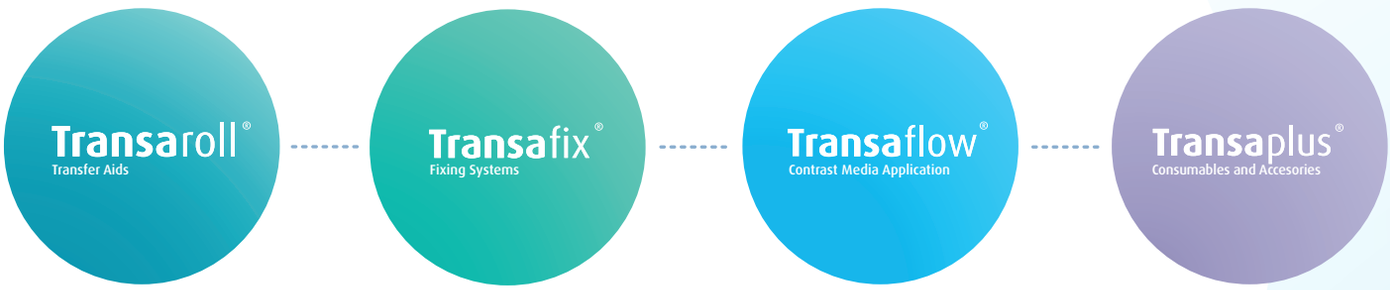
Transatlantic – your expert for patient transfer, fixation systems, contrast media application and hospital supplies

Discover our product ranges for patient transfer, fixation systems and consumables for the daily hospital routine. Transatlantic offers products that are tailored to the specific requirements of clinics, care facilities, and medical supply stores.



- Innovation and quality from the market leader
- Unique range of services
- Solutions for every application

- Solution for securing all access points and outputs
- Good value for money
- Ideal for intensive care and emergency medicine

- Manufacturer-independent solutions
- Highly user-friendly
- Affordable and durable

- Many years of experience
- Competent selection
- High quality

Our promise to you: Products for a healthier world

Reliable cooperation is based on trust. At Transatlantic we have been advising and supporting our customers for over 85 years, and our mission is to create better, more individualized, more humane and more efficient medical care for the benefit of patients and users.

Benefit from our many years of experience in manufacturing and distributing our products. Our products are of the highest quality and are carefully selected and tested by us. We offer our customers a wide range of products tailored to the specific requirements and needs of their facilities. With our service, we want to help our customers make their work more effective and efficient, thereby contributing to the improvement of patient care.

Our qualified medical device consultants provide expert support and advice to help you select the right products.

- **Personal consultation**
- **Excellent service**
- **Customized solutions**
- **RollboardCheck**
